

Case Master Pro

LAW FIRM MANAGEMENT AND DEBT COLLECTION SOFTWARE FOR WINDOWS®

Developed for Legal Case Management by Legal Case Managers

Providing a user-friendly case management system to help you gain efficiency and a competitive edge.

CASE MANAGEMENT

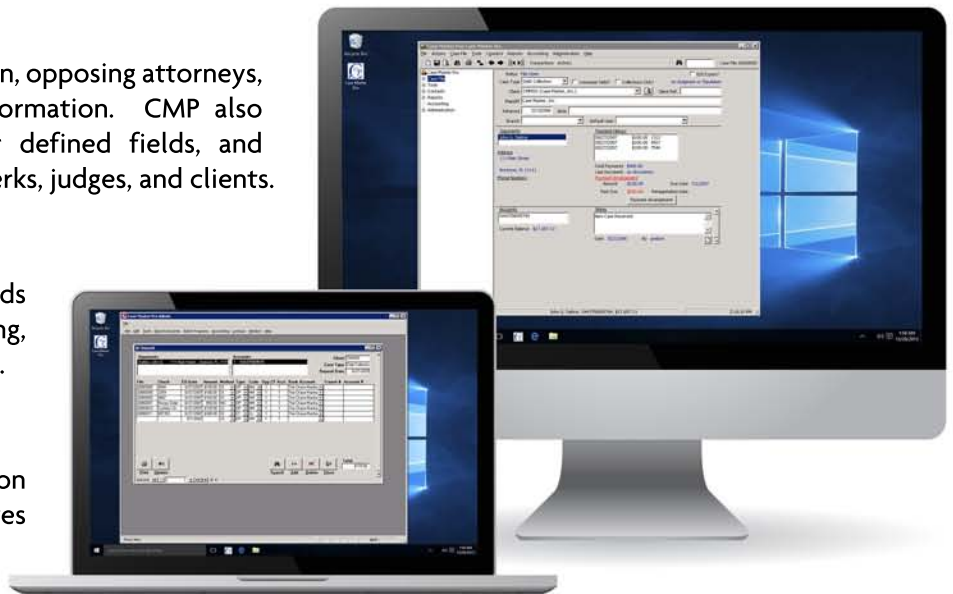

tracks your case files including opponent, litigation, opposing attorneys, process of service, account, and judgment information. CMP also includes scheduling, employee task lists, user defined fields, and security, as well as information regarding your clerks, judges, and clients.

BILLING AND ACCOUNTING

achieves all of your Trust Accounting needs including Billing, Client Remittances, Check Printing, A/R Reporting, and Trust Account Reconciliation.

DOCUMENT MANAGEMENT CENTER

automates all phases of your document production using standard Word or Word Perfect templates customized to your needs.

ADMINISTRATION

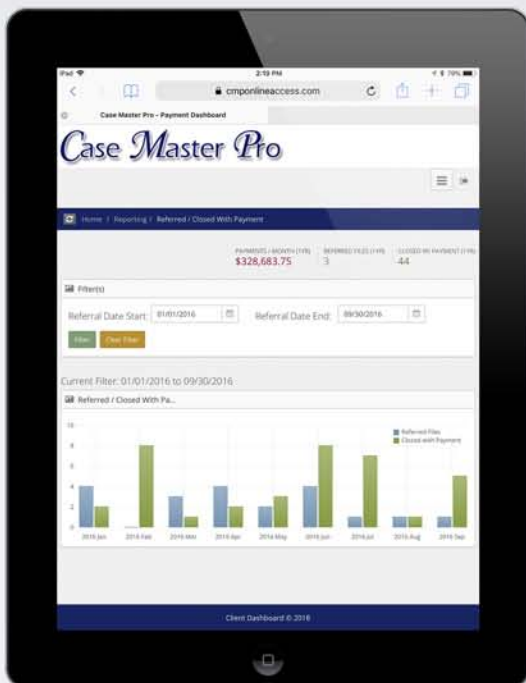

provides additional tools for maintaining all aspects of your case management database. Firms are able to customize case types, debt types, and terminology while managing other aspects of the software such as users, documents, and security.

CUSTOM REPORTING

allows the creation of reports based on any data field in the system. Reports can also be saved for later use and printed, emailed, exported to Excel, or faxed directly from CMP.

ROBUST MODULES & FEATURES

provides flexibility for evolving firms to customize their software needs, including imaging for paperless firms, client and payment dashboards, and EDI interfaces to manage client data effortlessly. With personal tech support and training, CMP can manage virtually any area of law and has grown to be an all encompassing, full coverage case management software.
